# Screening questions to be asked at start of Virtual Group Consultation / in patient review

1. Has your foot changed shape?
2. Do you have any pains or numbness in your feet?
3. Have you had previous foot ulcers?

Follow appropriate protocols depending on patient answer  
(pages 3-4)

# Protocol for person with new self reported active foot problem

Screeners questions to be asked at start of Virtual Group Consultation

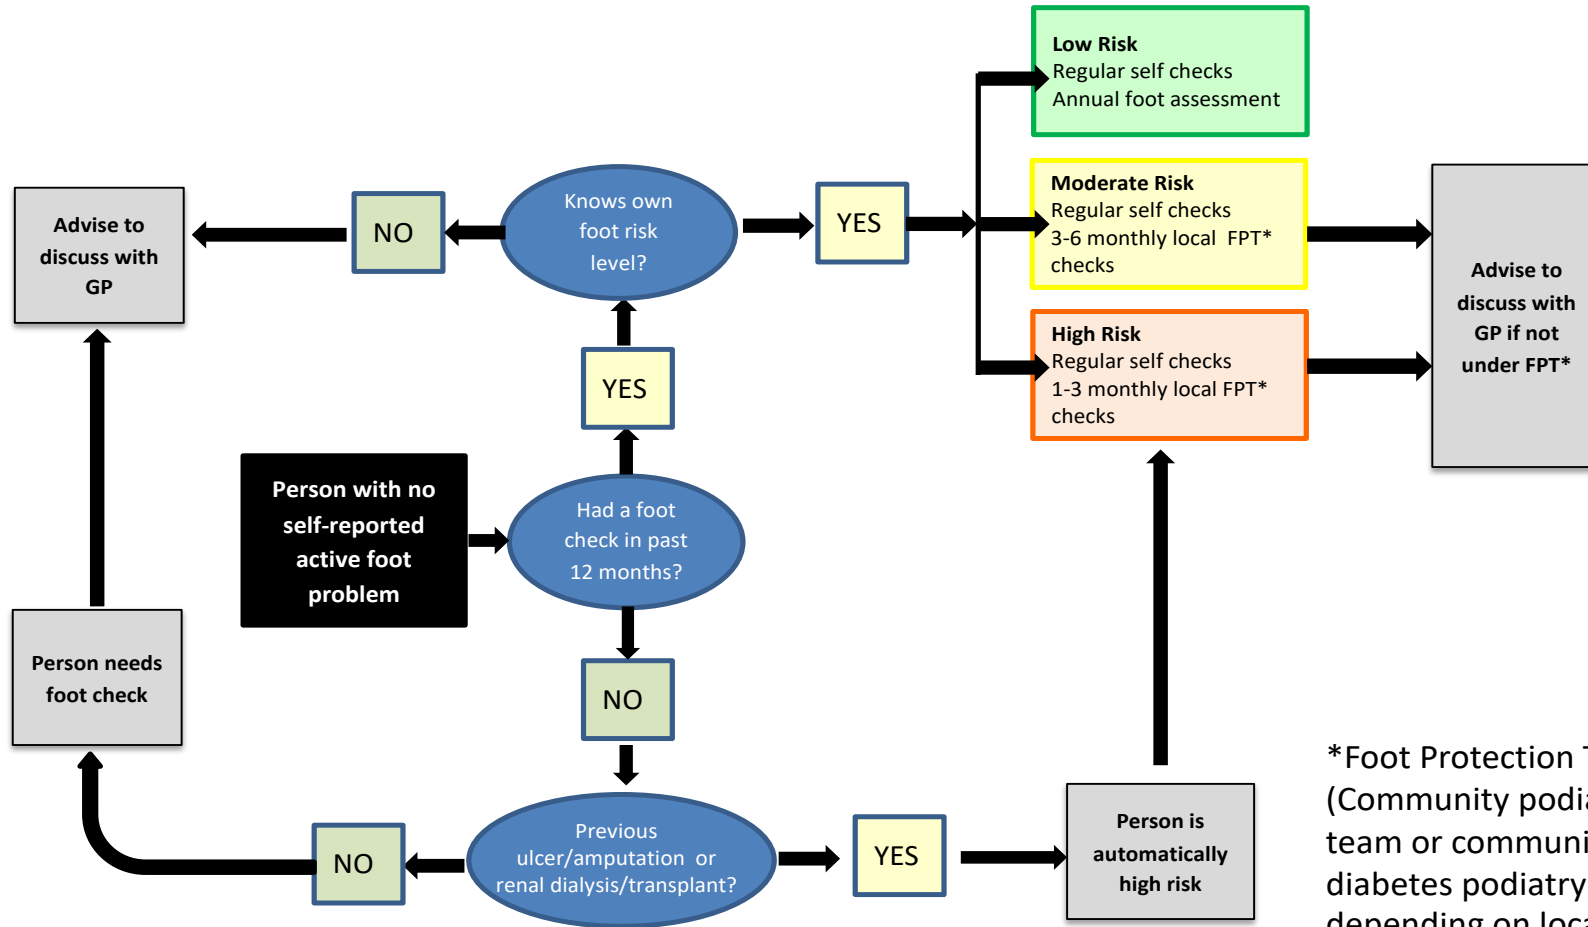

1. Has your foot changed shape?
2. Do you have any pains or numbness in your feet?
3. Have you had previous foot ulcers?

\*Multidisciplinary Diabetes Foot Team – please see MDFT directory for contact details

\*\* Please see NWL Diabetes Foot referral criteria (NWL Diabetes Guidelines p38) for further explanation

People already under an acute MDFT should be advised to contact their acute MDFT if they have concerns about a new or existing foot problem

# Protocol for person with no self reported active foot problem

**Ensure people at moderate and high risk know the contact details for their FPT**  
**Provide everyone with:**

- Information on foot self-checks
- Foot emergencies
- Signpost to Foot care pages on KnowDiabetes

\*Foot Protection Team (Community podiatry team or community diabetes podiatry team depending on local pathways)

Please see NWL Diabetes Foot referral criteria (NWL Diabetes Guidelines p38) for further information re foot risk level
